

## SOAP DISPENSERS **GW04 20 04 01 1.200ml Automatic soap dispenser**

### Product description

Material: SUS304J1 stainless steel  
Finish: Brushed  
Operation: Automatic  
Capacity: 1.200 ml.  
Attached to the wall  
Anti-drip valve  
Level viewer  
Operation indicator light

### Technical specifications:

The vertical soap dispenser with level viewer is entirely made of SUS304J1 stainless steel material, with a brushed finish. The container holds up to 1.200 milliliters of liquid soap. The dispenser is filled by inserting the key into the hole located at the top of the dispenser and pressing until the cover is unlocked and opened for filling. The soap dispenser has an anti-drip valve. The soap dispenser is operated by an electronic infra-red sensor and supplies each time 1 ml of soap. It is necessary to remove the hands for the next use. 4 AA batteries are needed. It is fixed to the wall by means of a support plate in stainless steel using 3 steel direct fixing screws, each of them placed on the corners of the plate. It can be filled with vegetable or synthetic soap. The soap dispenser model is GW04 20 04 01, manufactured by GENWEC WASHROOM S.L. - Av. Joan Carles I, 46-48 - ES 08908 L'Hospitalet de Llobregat - Barcelona (SPAIN). [www.genwec.com](http://www.genwec.com).
